Jambro Beamer Template

Ambrogio Cesa-Bianchi

November 15, 2022

*The Usual Disclaimer Applies

Intro

- ► After the usual \documentclass{beamer} load the theme with \usetheme{jambro}
- ▶ The file beamerthemejambro.sty has to be in the same folder of your beamer presentation

Intro

- ► The theme comes with a few options to be specified in the \documentclass[option here] {beamer} command
 - * light: uses Fira light as a default font
 - * roboto: changes the default font to Roboto
 - * cabin: changes the default font to Cabin
 - * night: switches to night mode colors
 - * red: switches the main color of the theme from blue to red (this option is overrun by night)
 - * 3to2: switches the aspect ratio from 16:9 to 3:2

Tables & Figures

Tables

► This is a table using minipage and tabularx commands

Dep. Variable: spread (△cs _{ij})	(1)	
	Baseline Specification	
Coeff. (β_1)	21.15*** (7.35)	
Double clustering	Yes	
Time-sector FE	No	
R-squared	0.034	
Observations	285,794	

NOTE. Standard errors (reported in parentheses) are clustered two-way, at the firm level and time level. The asterisks denote statistical significance (*** for p < 0.01, ** for p < 0.05, * for p < 0.1).

Tables

► Control opacity of columns with S identifier within tabularx command

Dep. Variable: spread (Δcs_{ij})	(1)
	Baseline Specification
Coeff. (β_1)	21.15*** (7.35)
Double clustering Time-sector FE	Yes No
R-squared Observations	

NOTE. Standard errors (reported in parentheses) are clustered two-way, at the firm level and time level. The asterisks denote statistical significance (*** for p < 0.01, ** for p < 0.05, * for p < 0.1).

Tables

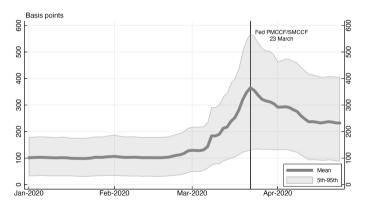

- ► Control the width of the table with minipage command
- ▶ The text in the columns from 2 onward is automatically place on multiple lines

Dep. Variable: spread (Δcs_{ij})	pread (∆cs _{ij}) (1)	
	Baseline Specification	
Coeff. (β_1)	21.15*** (7.35)	
Double clustering	Yes	
Time-sector FE	No	
R-squared	0.034	
Observations	285,794	

Note. Standard errors (reported in parentheses) are clustered two-way, at the firm level and time level. The asterisks denote statistical significance (*** for p < 0.01, ** for p < 0.05, * for p < 0.01).

Figures

► This is a figure

NOTE. Global average of investment grade corporate bond spreads (option-adjusted) weighted by bonds face value, together with 5th and 95th percentile of the full distribution. Source: ICE BOA ML.

Arrows & Handwriting

▶ The theme embeds a way to introduce handwritten notes using arrows

► Imagine you want to clarify something about *x*

▶ The theme embeds a way to introduce handwritten notes using arrows

- ► The theme allows to add arrows and handwritten notes using Tikz in combination with the \hand command
 - * Arrows can start from different cardinal points

▶ The theme embeds a way to introduce handwritten notes using arrows

- ► The theme allows to add arrows and handwritten notes using Tikz in combination with the \hand command
 - * Arrows can start from different cardinal points...
 - * ...have different colors and opacity...

- ▶ The theme embeds a way to introduce handwritten notes using arrows
- Imagine you want to clarify something about x

X A comment from the south

comment from the north

- ► The theme allows to add arrows and handwritten notes using Tikz in combination with the \hand command
 - * Arrows can start from different cardinal points...
 - ...have different colors and opacity...
 - * ...have wiggles....

- ▶ The theme embeds a way to introduce handwritten notes using arrows
- Imagine you want to clarify something about x

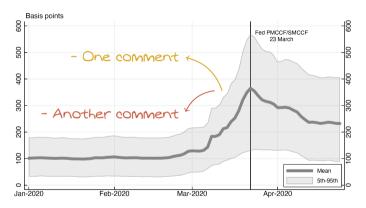

A comment from the north

A comment from the south

- ► The theme allows to add arrows and handwritten notes using Tikz in combination with the \hand command
 - * Arrows can start from different cardinal points...
 - * ...have different colors and opacity...
 - * ...have wiggles...
 - * ...be bidirectional or adirectional

Handwritten notes to figures

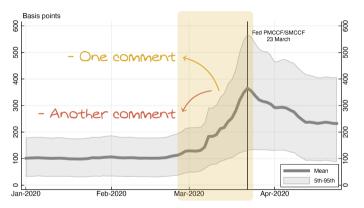

▶ Add notes to figures using the tikzpicture environment

NOTE. Global average of investment grade corporate bond spreads (option-adjusted) weighted by bonds face value, together with 5th and 95th percentile of the full distribution. Source: ICE BOA ML.

Handwritten notes to figures

▶ Add shaded areas on top of figures with the tikzpicture environment

NOTE. Global average of investment grade corporate bond spreads (option-adjusted) weighted by bonds face value, together with 5th and 95th percentile of the full distribution. Source: ICE BoA ML.

- Highlight text with the \hlight{} command
- Or highlight text with a 'pencil underline' effect using Tikz
 - * Highlight text with a pencil

- Highlight text with the \hlight{} command
- Or highlight text with a 'pencil underline' effect using Tikz
 - * Highlight text with a pencil
 - * Highlight text with a thicker pencil

- Highlight text with the \hlight{} command
- Or highlight text with a 'pencil underline' effect using Tikz
 - * Highlight text with a pencil
 - * Highlight text with a thicker pencil
 - * Highlight text with a different color thicker pencil

Boxing text or variables in equations

Highlight text with a pencil box effect using Tikz

Boxing text or variables in equations

- ► Highlight text with a pencil box effect using Tikz
- Or highlight objects in equations with a thicker box

$$y_t = \alpha + \beta x_t + u_t$$

Boxing text or variables in equations

► Highlight text with a pencil box effect using Tikz

ightharpoonup Or highlight objects in equations with a thicker box ightharpoonup A comment from north east $ightharpoonup y_t = lpha + eta x_t + u_t$

Add arrows and comments using \draw[arrow]

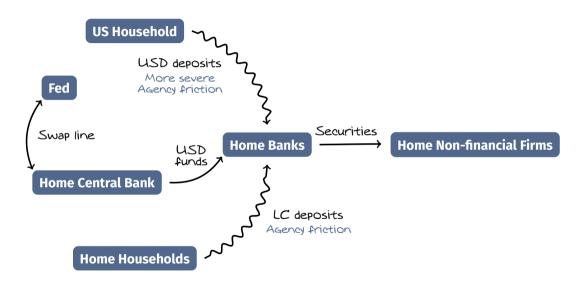

Boxing numbers in a table

Dep. Variable: spread ($\triangle cs_{ij}$)	(1)	
Baseline Specification		
Coeff. (β_1)	21.15*** This is a	large number
	(7.35)	
Double clustering	Yes	
Time-sector FE	No	
R-squared	0.034	
Observations	285,794	

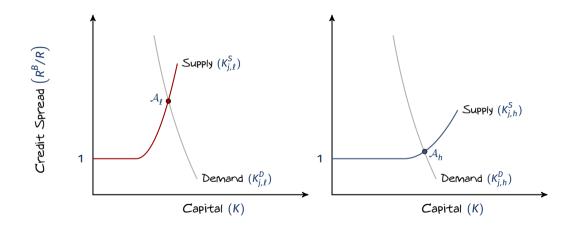

Note. Standard errors (reported in parentheses) are clustered two-way, at the firm level and time level. The asterisks denote statistical significance (*** for p < 0.01, ** for p < 0.05, * for p < 0.1).

Sketches

Sketch of a model

Sketch of demand and supply

Bubbles

► The theme allows to create bubbles with the \NB command in combination with the minipage environment

This is a small bubble

This is a large bubble. With two lines

This is a larger bubble with bullets:

- Uno
- Dos
- ► Tres
